Sample Description: Raw, Tetracycline, 3 oz

Comments:

Tetracycline Profile

Method: SM-Dairy

Analyte	Test Result	Unit	Conclusion	Date Tested
Tetracycline	Not Found			09/25/2018

Report Date: 10/23/2018

Reported By: **Susan Beasley**

Explanations of Coliform Analysis:

If coliform bacteria are **Absent**, the water is considered safe for drinking purpose. If coliform bacteria are **Present**, the water is considered unsafe for drinking purpose. Presence of *E. coli* (bacteria) generally indicates that the water has been contaminated with fecal material. It must be remembered that a water analysis refers only to the sample received and should not be regarded as a complete report on the water supply.
